Journal of ALLOYS AND COMPOUNDS

www.elsevier.com/locate/jallcom

Subject Index of Volumes 300–301

Absorption
investigations of the spectral properties of lanthanide(III) complexes with 3,3′-bi-isoquinoline-2,2′-dioxide ($biqO_2$) and a $biqO_2$-cryptate in solution, solids, and gels 283
Absorption and luminescence spectra
spectroscopic studies of Eu(III) and Nd(III) complexes with several polyoxometalates 370
Absorption and luminescence spectroscopy
applications of spectroscopic methods in studies of polyoxometalates and their complexes with lanthanide(III) ions 88
Absorption spectra
absorption spectrum analysis of uranium(III) formate 329
Absorption spectroscopy
spectroscopic and magnetic studies of polynuclear Nd and heteronuclear Nd:Cu squarates 303
heteronuclear Eu:Cu trichloroacetate and its polynuclear Eu analogue; their spectroscopy and magnetism 353
Actinide
mixed valency of the rare earth and actinium ions in solid states 348
Actinides
blue emission of Pr^{3+} ions in $LaCl_3$ crystal triggered by U^{3+} 18
Aminoacid and hydroxyacid complexes
spectroscopic study of lanthanide(III) complexes with chosen aminoacids and hydroxyacids in solution 38
Amorphous materials
excitation of Er^{3+} emission in Er, Yb codoped thin silica films 61
saturation effect on multiphonon relaxation rates of rare earth ions in glasses at high excitation power 131
crystal field analysis of Er^{3+}-doped glasses: germanate, silicate and ZBLAN 407
cooperative luminescence as a probe of clustering in Yb^{3+} doped glasses 443
Anti-Stokes emission
efficient up-conversion in $KYb_{0.8}Eu_{0.2}(WO_4)_2$ crystal 180
Anti-Stokes luminescence
excited state absorption processes in Sm^{3+} doped GdOCl 218
Avalanche
blue emission of Pr^{3+} ions in $LaCl_3$ crystal triggered by U^{3+} 18

$biqO_2$-cryptate
investigations of the spectral properties of lanthanide(III) complexes with 3,3′-bi-isoquinoline-2,2′-dioxide ($biqO_2$) and a $biqO_2$-cryptate in solution, solids, and gels 283

Cerium chloride
investigation of the optical and ultrasonic properties of praseodymium and cerium chlorides in nonaqueous solutions 334
Cerium(III)
rare earth doped sol–gel materials as potential absorbance standards 224
Charge transfer
charge transfer luminescence of Yb^{3+} in orthophosphates 426
Coherent elastic light scattering
coherent light sources with powder: stimulated amplification versus super-radiance 11
Colour centers
colour centers in doped $Gd_3Ga_5O_{12}$ and $Y_3Al_5O_{12}$ laser crystals 395
Complexation
measurement and analysis of the temperature and pressure dependence of the $^7F_0 \rightarrow {}^5D_0$ excitation spectra of Eu(III) complexes with 4-phenylethynyl-2,6-pyridine-dicarboxylic acid 101
Compressibility
investigation of the optical and ultrasonic properties of praseodymium and cerium chlorides in nonaqueous solutions 334
Cooperative interaction
spectroscopy and structure of Eu(III) complex with *N*-methylglycine 275
Cooperative interactions
spectroscopy and structure of selected lanthanide polymeric and monomeric systems 71
Copper
spectroscopic and magnetic studies of polynuclear Nd and heteronuclear Nd:Cu squarates 303
Crown ethers
rare earth coordination compounds: from monodentate ligands via crown ether complexes to a variety of bidentate ligands 113
Cryptates
macrocyclic and macropolycyclic heteroaromatic *N*-oxides: powerful sensitizers for the lanthanide ions emission 141
Crystal and ligand fields
vibronic spectra and details of the structure of europium nitrates with derivatives of 1,10-phenanthroline 184
crystal field analysis of Er^{3+}-doped glasses: germanate, silicate and ZBLAN 407
optical spectroscopy of the adducts of europium tris(dipivaloylmethanate) with derivatives of 1,10-phenanthroline 464
Crystal-field analysis
absorption spectrum analysis of uranium(III) formate 329
Crystal field simulation
simple overlap model and crystal field analysis of $Cs_2ZnCl_4:Co^{2+}$. Correlation with optical and magnetic properties 242
Crystal growth
growth and characterization of lithium tantalate single crystals doped with Ho, Tm, Nd, Yb, Pr and doped by diffusion with Cr and Cu 322
structure peculiarities of the $La_{1-x}Nd_xGaO_3$ solid solutions 471
Crystal structure
crystal structure and optical spectroscopy of $CaGdAlO_4$:Er single crystal 475

Elsevier Science S.A.
PII: S0925-8388(00)00781-1

Crystal structure and symmetry
structure peculiarities of the $La_{1-x}Nd_xGaO_3$ solid solutions 471

5,7-Dihalogeno-8-hydroxyquinoline derivatives
extraction studies on the formation of La(III), Gd(III) and Lu(III) species with 5,7-dihalogeno derivatives of 8-hydroxyquinoline 234
Dimers in insulators
absence or existence of intrinsic optical bistability of coupled ion pairs in solids 32
Diode pumping
stimulated Raman scattering in Nd:KGW laser with diode pumping 300
Divalent lanthanides
spectroscopic properties of $SrZnCl_4:M^{2+}$ and $BaZnCl_4:M^{2+}$ (M= Eu, Sm, Tm) 193
Double perturbation theory
theory of host sensitized luminescence of rare earth doped materials. I. Parity considerations 165

(E.) luminescence
VUV excited emission pulse shapes of $LuAlO_3$:Ce 483
Electroluminescence
luminescence characteristics of Er-doped GaN semiconductor thin films 207
Electronic band structure
band structure and excitons in $CsCdBr_3$ 479
Electronic spectra
spectroscopic properties of neodymium monochloroacetate single crystal as an example of complex containing Nd(III) in three different symmetry sites 414
optical properties of europium compounds of the formulae: $Eu(NCS)_3 \cdot 2[N_4(CH_2)_6] \cdot 8H_2O$ and $Eu(NO_3)_3 \cdot 2[N_4(CH_2)_6] \cdot 10H_2O$ 488
Electron paramagnetic resonance
auger-type excitation and de-excitation processes in rare earth and transition metal doped semiconductors 23
growth and characterization of lithium tantalate single crystals doped with Ho, Tm, Nd, Yb, Pr and doped by diffusion with Cr and Cu 322
Electron–phonon interaction
absence or existence of intrinsic optical bistability of coupled ion pairs in solids 32
photoacoustic spectroscopy of YAG crystals doped with Ce 158
vibronic spectra and details of the structure of europium nitrates with derivatives of 1,10-phenanthroline 184
optical spectroscopy of the adducts of europium tris(dipivaloylmethanate) with derivatives of 1,10-phenanthroline 464
Electron spin resonance
electron spin resonance and optical measurements of yttrium orthovanadate, doped with Nd^{3+} ions 310
Emission
synthesis and spectroscopic characteristics of a new class of lanthanide compounds of formulae $Ln(HX)_3(NO_3)_3$ and $Ln(HX)_3Cl_3$ 360
Emission and absorption properties
emission and absorption properties of the eight-coordinate $[Pr(C_7H_9NO)_8](ClO_4)_3$ complex with 3,4-lutidine *N*-oxide 377
Emission quenching
improvement of emission intensity in luminescent materials based on the antenna effect 55
investigations of the spectral properties of lanthanide(III) complexes with 3,3′-bi-isoquinoline-2,2′-dioxide ($biqO_2$) and a $biqO_2$-cryptate in solution, solids, and gels 283
Emission spectroscopy
investigations of the spectral properties of lanthanide(III) complexes with 3,3′-bi-isoquinoline-2,2′-dioxide ($biqO_2$) and a $biqO_2$-cryptate in solution, solids, and gels 283
Energy level barycenters
simple way to test the validity of $^{2S+1}L_J$ barycenters of rare earth ions (e.g. $4f^2$, $4f^3$ and $4f^6$ configurations) 2
Energy level schemes
simulation of the spectroscopic and magnetic properties of RE(III) ions in RE oxychlorides based on exact crystal structure from Rietveld refinements 45
Energy transfer
blue emission of Pr^{3+} ions in $LaCl_3$ crystal triggered by U^{3+} 18
spectroscopic study of lanthanide(III) complexes with chosen aminoacids and hydroxyacids in solution 38
investigations of the spectral properties of lanthanide(III) complexes with 3,3′-bi-isoquinoline-2,2′-dioxide ($biqO_2$) and a $biqO_2$-cryptate in solution, solids, and gels 283
downconversion: a new route to visible quantum cutting 421
VUV excited emission pulse shapes of $LuAlO_3$:Ce 483
EPR
applications of spectroscopic methods in studies of polyoxometalates and their complexes with lanthanide(III) ions 88
Erbium
Yb^{3+}–Er^{3+}-codoped $LaLiP_4O_{12}$ glass: a new eye-safe laser at 1535 nm 123
Er doping
luminescence characteristics of Er-doped GaN semiconductor thin films 207
Er^{3+}
investigation of Er, Er:Yb and Er:Tm systems in silica sol–gels 450
Er^{3+}:Tm^{3+}
investigation of Er, Er:Yb and Er:Tm systems in silica sol–gels 450
Er^{3+}:Yb^{3+}
investigation of Er, Er:Yb and Er:Tm systems in silica sol–gels 450
ESR
ESR and X-ray diffraction measurements of Nd substituted yttrium aluminum garnet films 316
Ethanol
investigation of the optical and ultrasonic properties of praseodymium and cerium chlorides in nonaqueous solutions 334
Eu(III)
synthesis and spectroscopic characteristics of a new class of lanthanide compounds of formulae $Ln(HX)_3(NO_3)_3$ and $Ln(HX)_3Cl_3$ 360
Eu(III) and Nd(III) complexes
spectroscopic studies of Eu(III) and Nd(III) complexes with several polyoxometalates 370
Europium
simple way to test the validity of $^{2S+1}L_J$ barycenters of rare earth ions (e.g. $4f^2$, $4f^3$ and $4f^6$ configurations) 2
measurement and analysis of the temperature and pressure dependence of the $^7F_0 \rightarrow {}^5D_0$ excitation spectra of Eu(III) complexes with 4-phenylethynyl-2,6-pyridine-dicarboxylic acid 101
spectroscopic properties of $SrZnCl_4:M^{2+}$ and $BaZnCl_4:M^{2+}$ (M= Eu, Sm, Tm) 193
spectroscopy and structure of Eu(III) complex with *N*-methylglycine 275
Europium complexes
improvement of emission intensity in luminescent materials based on the antenna effect 55
Europium thiocyanate urotropine complexes
optical properties of europium compounds of the formulae:

$Eu(NCS)_3 \cdot 2[N_4(CH_2)_6] \cdot 8H_2O$ and $Eu(NO_3)_3 \cdot 2[N_4(CH_2)_6] \cdot 10H_2O$ 488
Europium trichloracetate
heteronuclear Eu:Cu trichloroacetate and its polynuclear Eu analogue; their spectroscopy and magnetism 353
Eu^{3+} doping
emission properties of nanostructured Eu^{3+} doped zinc aluminate spinels 456
Excitation
investigations of the spectral properties of lanthanide(III) complexes with 3,3′-bi-isoquinoline-2,2′-dioxide ($biqO_2$) and a $biqO_2$-cryptate in solution, solids, and gels 283
synthesis and spectroscopic characteristics of a new class of lanthanide compounds of formulae $Ln(HX)_3(NO_3)_3$ and $Ln(HX)_3Cl_3$ 360
Excitation power
optical properties of Nd^{3+}-doped silica fibers obtained by sol-gel method 459
Excitation spectrum
measurement and analysis of the temperature and pressure dependence of the $^7F_0 \rightarrow {}^5D_0$ excitation spectra of Eu(III) complexes with 4-phenylethynyl-2,6-pyridine-dicarboxylic acid 101
Excited state absorption
excited state absorption processes in Sm^{3+} doped GdOCl 218
Extraction
extraction studies on the formation of La(III), Gd(III) and Lu(III) species with 5,7-dihalogeno derivatives of 8-hydroxyquinoline 234
Eye-safe lasers
Yb^{3+}–Er^{3+}-codoped $LaLiP_4O_{12}$ glass: a new eye-safe laser at 1535 nm 123

Ferroelectrics
growth and characterization of lithium tantalate single crystals doped with Ho, Tm, Nd, Yb, Pr and doped by diffusion with Cr and Cu 322
structure peculiarities of the $La_{1-x}Nd_xGaO_3$ solid solutions 471
Fiber length
optical properties of Nd^{3+}-doped silica fibers obtained by sol-gel method 459
Fiber optics
preliminary report on growth, structure and optical properties of $K_5LaLi_2F_{10}:Ln^{3+}$ (Ln^{3+}–Pr^{3+}, Nd^{3+}, Er^{3+}) crystals 254
Fluorescence
macrocyclic and macropolycyclic heteroaromatic *N*-oxides: powerful sensitizers for the lanthanide ions emission 141
fluorescence study of zirconia films doped by Eu^{3+}, Tb^{3+} and Sm^{3+} and their comparison with silica films 147
Nd^{3+}-, Er^{3+}- and Pr^{3+}-doped fluoride glasses for laser applications 341
Fluorescence intensity
optical properties of Nd^{3+}-doped silica fibers obtained by sol-gel method 459
Fluoride glasses
Nd^{3+}-, Er^{3+}- and Pr^{3+}-doped fluoride glasses for laser applications 341
Fluoroimmunoassay
macrocyclic and macropolycyclic heteroaromatic *N*-oxides: powerful sensitizers for the lanthanide ions emission 141

Gadolinium(III)
extraction studies on the formation of La(III), Gd(III) and Lu(III) species with 5,7-dihalogeno derivatives of 8-hydroxyquinoline 234
GaN
luminescence characteristics of Er-doped GaN semiconductor thin films 207
$Gd_3Ga_5O_{12}$
colour centers in doped $Gd_3Ga_5O_{12}$ and $Y_3Al_5O_{12}$ laser crystals 395
Grain boundaries
temperature dependence of Ce-emission kinetics in YAG:Ce optical ceramic 495

3-Halo-2,6-lutidine *N*-oxides
synthesis, chemical characterisation and spectroscopic studies of the six-coordinate 3-halo-2,6-lutidine *N*-oxide complex $[PrCl_3(H_2O)(BrC_7H_8NO)_2]H_2O$ — a new Pr(III) compound 383
Heteronuclear Eu:Cu trichloroacetate
heteronuclear Eu:Cu trichloroacetate and its polynuclear Eu analogue; their spectroscopy and magnetism 353
Holmium
optical transitions of Ho^{3+} in YAG 389
Host sensitized luminescence
theory of host sensitized luminescence of rare earth doped materials. I. Parity considerations 165
Human eye damage
Er^{3+} and Yb^{3+} doped active media for 'eye safe' laser systems 398
Hydration
spectroscopic study of lanthanide(III) complexes with chosen aminoacids and hydroxyacids in solution 38

Immobilization
improvement of emission intensity in luminescent materials based on the antenna effect 55
Impurities in semiconductors
auger-type excitation and de-excitation processes in rare earth and transition metal doped semiconductors 23
Inelastic light scattering
saturation effect on multiphonon relaxation rates of rare earth ions in glasses at high excitation power 131
Insulator
avalanche up-conversion processes in Pr, Yb-doped materials 65
Insulators
photoacoustic spectroscopy of YAG crystals doped with Ce 158
structure peculiarities of the $La_{1-x}Nd_xGaO_3$ solid solutions 471
Intensity analysis
absorption spectrum analysis of uranium(III) formate 329
Intensity calculations
synthesis and spectroscopic characteristics of a new class of lanthanide compounds of formulae $Ln(HX)_3(NO_3)_3$ and $Ln(HX)_3Cl_3$ 360

Judd–Ofelt theory
electronic spectroscopy of trivalent lanthanide ions in lead zinc borate glasses 174

$K_5LaLi_2F_{10}$ crystals
preliminary report on growth, structure and optical properties of $K_5LaLi_2F_{10}:Ln^{3+}$ (Ln^{3+}–Pr^{3+}, Nd^{3+}, Er^{3+}) crystals 254

Lanthanide
spectroscopy and structure of selected lanthanide polymeric and monomeric systems 71
Lanthanide(III) complexes
applications of spectroscopic methods in studies of polyoxometalates and their complexes with lanthanide(III) ions 88
Lanthanide ions
electronic spectroscopy of trivalent lanthanide ions in lead zinc borate glasses 174

Lanthanides
macrocyclic and macropolycyclic heteroaromatic *N*-oxides: powerful sensitizers for the lanthanide ions emission 141
rare earth macrocyclic complexes derived from spermine 435
Lanthanide spectroscopy
the nature of plaser-powdered laser 214
Lanthanum(III)
extraction studies on the formation of La(III), Gd(III) and Lu(III) species with 5,7-dihalogeno derivatives of 8-hydroxyquinoline 234
Laser material
preliminary report on growth, structure and optical properties of $K_5LaLi_2F_{10}:Ln^{3+}$ (Ln^{3+}–Pr^{3+}, Nd^{3+}, Er^{3+}) crystals 254
Laser(s)
coherent light sources with powder: stimulated amplification versus super-radiance 11
influence of Yb concentration on Yb:KYW laser properties 238
Nd^{3+}-, Er^{3+}- and Pr^{3+}-doped fluoride glasses for laser applications 341
Laser systems
Er^{3+} and Yb^{3+} doped active media for 'eye safe' laser systems 398
Lasing powder
the nature of plaser-powdered laser 214
Ligands
rare earth coordination compounds: from monodentate ligands via crown ether complexes to a variety of bidentate ligands 113
Light-conversion molecular devices
synthesis, chemical characterisation and spectroscopic studies of the six-coordinate 3-halo-2,6-lutidine *N*-oxide complex $[PrCl_3(H_2O)(BrC_7H_8NO)_2]H_2O$ — a new Pr(III) compound 383
Light scattering
the nature of plaser-powdered laser 214
Ln(III) complexes
spectroscopic study of lanthanide(III) complexes with chosen aminoacids and hydroxyacids in solution 38
$LuAlO_3$:Ce
VUV excited emission pulse shapes of $LuAlO_3$:Ce 483
Luminescence
auger-type excitation and de-excitation processes in rare earth and transition metal doped semiconductors 23
spectroscopic study of lanthanide(III) complexes with chosen aminoacids and hydroxyacids in solution 38
improvement of emission intensity in luminescent materials based on the antenna effect 55
excitation of Er^{3+} emission in Er, Yb codoped thin silica films 61
avalanche up-conversion processes in Pr, Yb-doped materials 65
measurement and analysis of the temperature and pressure dependence of the $^7F_0 \rightarrow {}^5D_0$ excitation spectra of Eu(III) complexes with 4-phenylethynyl-2,6-pyridine-dicarboxylic acid 101
Yb^{3+}–Er^{3+}-codoped $LaLiP_4O_{12}$ glass: a new eye-safe laser at 1535 nm 123
saturation effect on multiphonon relaxation rates of rare earth ions in glasses at high excitation power 131
photoacoustic spectroscopy of YAG crystals doped with Ce 158
vibronic spectra and details of the structure of europium nitrates with derivatives of 1,10-phenanthroline 184
spectroscopic properties of $SrZnCl_4:M^{2+}$ and $BaZnCl_4:M^{2+}$ (M= Eu, Sm, Tm) 193
radiative recombination in Ce-, Pr-, and Tb-doped barium fluoride 199
radiative recombination in BaF_2:Pr 261
laser-induced luminescence of rare-earth elements in natural zircon 267
thermoluminescence and scintillation properties of LuAP and YAP 289
synthesis and emission spectra of $Ba_4In_{1.98}Nd_{0.02}O_7$ and $Ba_4In_{1.98}Er_{0.02}O_7$ 295
spectroscopic and magnetic studies of polynuclear Nd and heteronuclear Nd:Cu squarates 303
heteronuclear Eu:Cu trichloroacetate and its polynuclear Eu analogue; their spectroscopy and magnetism 353
optical transitions of Ho^{3+} in YAG 389
crystal field analysis of Er^{3+}-doped glasses: germanate, silicate and ZBLAN 407
charge transfer luminescence of Yb^{3+} in orthophosphates 426
energy transfer processes in Pr^{3+}: $Be_2La_2O_5$ crystals 430
cooperative luminescence as a probe of clustering in Yb^{3+} doped glasses 443
optical spectroscopy of the adducts of europium tris(dipivaloylmethanate) with derivatives of 1,10-phenanthroline 464
crystal structure and optical spectroscopy of $CaGdAlO_4$:Er single crystal 475
Luminescence lifetimes
spectroscopic studies of Eu(III) and Nd(III) complexes with several polyoxometalates 370
Luminescent complexes
macrocyclic and macropolycyclic heteroaromatic *N*-oxides: powerful sensitizers for the lanthanide ions emission 141
Luminescent ions
investigation of $LiXO_3$ (X=Nb, Ta) crystals doped with luminescent ions 152
Lutetium(III)
extraction studies on the formation of La(III), Gd(III) and Lu(III) species with 5,7-dihalogeno derivatives of 8-hydroxyquinoline 234
Lutidine *N*-oxide ligand
emission and absorption properties of the eight-coordinate $[Pr(C_7H_9NO)_8](ClO_4)_3$ complex with 3,4-lutidine *N*-oxide 377

Macrocyclic Schiff base complexes
rare earth macrocyclic complexes derived from spermine 435
Magnetic properties
simple overlap model and crystal field analysis of $Cs_2ZnCl_4:Co^{2+}$. Correlation with optical and magnetic properties 242
Magnetism
spectroscopic and magnetic studies of polynuclear Nd and heteronuclear Nd:Cu squarates 303
heteronuclear Eu:Cu trichloroacetate and its polynuclear Eu analogue; their spectroscopy and magnetism 353

N-oxides
macrocyclic and macropolycyclic heteroaromatic *N*-oxides: powerful sensitizers for the lanthanide ions emission 141
Nd:KGW Raman laser
stimulated Raman scattering in Nd:KGW laser with diode pumping 300
Neodymium
simple way to test the validity of $^{2S+1}L_J$ barycenters of rare earth ions (e.g. $4f^2$, $4f^3$ and $4f^6$ configurations) 2
the nature of plaser-powdered laser 214
spectroscopic and magnetic studies of polynuclear Nd and heteronuclear Nd:Cu squarates 303
ESR and X-ray diffraction measurements of Nd substituted yttrium aluminum garnet films 316
Neodymium(III)
rare earth doped sol–gel materials as potential absorbance standards 224
Neodymium monochloroacetate crystal
spectroscopic properties of neodymium monochloroacetate single

crystal as an example of complex containing Nd(III) in three different symmetry sites 414
Nephelauxetic scale
simple way to test the validity of $^{2S+1}L_J$ barycenters of rare earth ions (e.g. $4f^2$, $4f^3$ and $4f^6$ configurations) 2
Non-aqueous solutions
investigation of the optical and ultrasonic properties of praseodymium and cerium chlorides in nonaqueous solutions 334
n-Propanol
investigation of the optical and ultrasonic properties of praseodymium and cerium chlorides in nonaqueous solutions 334

Octakis Pr(III) complex
emission and absorption properties of the eight-coordinate $[Pr(C_7H_9NO)_8](ClO_4)_3$ complex with 3,4-lutidine *N*-oxide 377
Optical bistability
absence or existence of intrinsic optical bistability of coupled ion pairs in solids 32
Optical measurements
electron spin resonance and optical measurements of yttrium orthovanadate, doped with Nd^{3+} ions 310
Optical properties
coherent light sources with powder: stimulated amplification versus super-radiance 11
auger-type excitation and de-excitation processes in rare earth and transition metal doped semiconductors 23
excitation of Er^{3+} emission in Er, Yb codoped thin silica films 61
avalanche up-conversion processes in Pr, Yb-doped materials 65
photoacoustic spectroscopy of YAG crystals doped with Ce 158
simple overlap model and crystal field analysis of $Cs_2ZnCl_4:Co^{2+}$. Correlation with optical and magnetic properties 242
growth and characterization of lithium tantalate single crystals doped with Ho, Tm, Nd, Yb, Pr and doped by diffusion with Cr and Cu 322
crystal field analysis of Er^{3+}-doped glasses: germanate, silicate and ZBLAN 407
optical properties of Nd^{3+}-doped silica fibers obtained by sol-gel method 459
band structure and excitons in $CsCdBr_3$ 479
Optical spectroscopy
electronic spectroscopy of trivalent lanthanide ions in lead zinc borate glasses 174
Order–disorder effect
saturation effect on multiphonon relaxation rates of rare earth ions in glasses at high excitation power 131
Overlap model
simple overlap model and crystal field analysis of $Cs_2ZnCl_4:Co^{2+}$. Correlation with optical and magnetic properties 242
Oxide glasses
electronic spectroscopy of trivalent lanthanide ions in lead zinc borate glasses 174

Paramagnetic susceptibility
simulation of the spectroscopic and magnetic properties of RE(III) ions in RE oxychlorides based on exact crystal structure from Rietveld refinements 45
Phonons
saturation effect on multiphonon relaxation rates of rare earth ions in glasses at high excitation power 131
Phosphate glasses
Yb^{3+}–Er^{3+}-codoped $LaLiP_4O_{12}$ glass: a new eye-safe laser at 1535 nm 123
Phosphors
thermoluminescence and scintillation properties of LuAP and YAP 289
downconversion: a new route to visible quantum cutting 421
Phosphors powders
coherent light sources with powder: stimulated amplification versus super-radiance 11
Photocoustic effect
photoacoustic spectroscopy of YAG crystals doped with Ce 158
Photoluminescence
luminescence characteristics of Er-doped GaN semiconductor thin films 207
Plaser
the nature of plaser-powdered laser 214
Point defects
growth and characterization of lithium tantalate single crystals doped with Ho, Tm, Nd, Yb, Pr and doped by diffusion with Cr and Cu 322
Polarization
measurement and analysis of the temperature and pressure dependence of the $^7F_0 \rightarrow {}^5D_0$ excitation spectra of Eu(III) complexes with 4-phenylethynyl-2,6-pyridine-dicarboxylic acid 101
Polymeric and monomeric systems
spectroscopy and structure of selected lanthanide polymeric and monomeric systems 71
Polyoxometalates
applications of spectroscopic methods in studies of polyoxometalates and their complexes with lanthanide(III) ions 88
spectroscopic studies of Eu(III) and Nd(III) complexes with several polyoxometalates 370
Powder compounds
synthesis and emission spectra of $Ba_4In_{1.98}Nd_{0.02}O_7$ and $Ba_4In_{1.98}Er_{0.02}O_7$ 295
Powdered laser
the nature of plaser-powdered laser 214
Praseodymium
simple way to test the validity of $^{2S+1}L_J$ barycenters of rare earth ions (e.g. $4f^2$, $4f^3$ and $4f^6$ configurations) 2
energy transfer processes in Pr^{3+}: $Be_2La_2O_5$ crystals 430
Praseodymium chloride
investigation of the optical and ultrasonic properties of praseodymium and cerium chlorides in nonaqueous solutions 334
Pr(III)
synthesis and spectroscopic characteristics of a new class of lanthanide compounds of formulae $Ln(HX)_3(NO_3)_3$ and $Ln(HX)_3Cl_3$ 360
Pr(III) complexes
synthesis, chemical characterisation and spectroscopic studies of the six-coordinate 3-halo-2,6-lutidine *N*-oxide complex $[PrCl_3(H_2O)(BrC_7H_8NO)_2]H_2O$ — a new Pr(III) compound 383
Pr^{3+}:$Be_2La_2O_5$
energy transfer processes in Pr^{3+}: $Be_2La_2O_5$ crystals 430

Quantum cutting
downconversion: a new route to visible quantum cutting 421

Radiation defects
colour centers in doped $Gd_3Ga_5O_{12}$ and $Y_3Al_5O_{12}$ laser crystals 395
Radiation effects
radiative recombination in Ce-, Pr-, and Tb-doped barium fluoride 199
radiative recombination in BaF_2:Pr 261
Radiative transitions
investigation of $LiXO_3$ (X=Nb, Ta) crystals doped with luminescent ions 152

Rare earth
Nd^{3+}-, Er^{3+}- and Pr^{3+}-doped fluoride glasses for laser applications 341
mixed valency of the rare earth and actinium ions in solid states 348
Rare earth complexes
rare earth coordination compounds: from monodentate ligands via crown ether complexes to a variety of bidentate ligands 113
Rare earth doping
theory of host sensitized luminescence of rare earth doped materials. I. Parity considerations 165
Rare earth ions
preliminary report on growth, structure and optical properties of $K_5LaLi_2F_{10}:Ln^{3+}$ (Ln^{3+}–Pr^{3+}, Nd^{3+}, Er^{3+}) crystals 254
Rare earth oxychlorides
simulation of the spectroscopic and magnetic properties of RE(III) ions in RE oxychlorides based on exact crystal structure from Rietveld refinements 45
Rare earths
blue emission of Pr^{3+} ions in $LaCl_3$ crystal triggered by U^{3+} 18
luminescence characteristics of Er-doped GaN semiconductor thin films 207
Recombination
radiative recombination in BaF_2:Pr 261
Recombination and trapping
auger-type excitation and de-excitation processes in rare earth and transition metal doped semiconductors 23
thermoluminescence and scintillation properties of LuAP and YAP 289
band structure and excitons in $CsCdBr_3$ 479
temperature dependence of Ce-emission kinetics in YAG:Ce optical ceramic 495
REE
laser-induced luminescence of rare-earth elements in natural zircon 267
Relative fluorescence yield
lifetime and fluorescence quantum yield of uranium(VI) species in hydrolyzed solutions 107
Rietveld profile refinement
simulation of the spectroscopic and magnetic properties of RE(III) ions in RE oxychlorides based on exact crystal structure from Rietveld refinements 45

Safety
Er^{3+} and Yb^{3+} doped active media for 'eye safe' laser systems 398
Samarium
spectroscopic properties of $SrZnCl_4:M^{2+}$ and $BaZnCl_4:M^{2+}$ (M= Eu, Sm, Tm) 193
Samarium-doped CdF_2
spectroscopic studies of samarium doped CdF_2 crystal 230
Samarium oxychloride
excited state absorption processes in Sm^{3+} doped GdOCl 218
Sarcosine
spectroscopy and structure of Eu(III) complex with *N*-methylglycine 275
Scintillation
VUV excited emission pulse shapes of $LuAlO_3$:Ce 483
Scintillator
temperature dependence of Ce-emission kinetics in YAG:Ce optical ceramic 495
Scintillators
spectroscopy and characterisation of Ce^{3+}-doped pure or mixed $Lu_x(RE^{3+})_{1-x}ALO_3$ scintillators 95
VUV excited emission pulse shapes of $LuAlO_3$:Ce 483
Semiconductors
auger-type excitation and de-excitation processes in rare earth and transition metal doped semiconductors 23
^{29}Si NMR
rare earth doped sol–gel materials as potential absorbance standards 224
Silica films
fluorescence study of zirconia films doped by Eu^{3+}, Tb^{3+} and Sm^{3+} and their comparison with silica films 147
Sol–gel
rare earth doped sol–gel materials as potential absorbance standards 224
investigation of Er, Er:Yb and Er:Tm systems in silica sol–gels 450
Solvation
investigation of the optical and ultrasonic properties of praseodymium and cerium chlorides in nonaqueous solutions 334
Solvation numbers
investigation of the optical and ultrasonic properties of praseodymium and cerium chlorides in nonaqueous solutions 334
Sound velocity
investigation of the optical and ultrasonic properties of praseodymium and cerium chlorides in nonaqueous solutions 334
Speciation
lifetime and fluorescence quantum yield of uranium(VI) species in hydrolyzed solutions 107
Spectroscopic properties
spectroscopy and characterisation of Ce^{3+}-doped pure or mixed $Lu_x(RE^{3+})_{1-x}ALO_3$ scintillators 95
Spectroscopy
spectroscopy and structure of selected lanthanide polymeric and monomeric systems 71
spectroscopic properties of $SrZnCl_4:M^{2+}$ and $BaZnCl_4:M^{2+}$ (M= Eu, Sm, Tm) 193
spectroscopic studies of samarium doped CdF_2 crystal 230
spectroscopy and structure of Eu(III) complex with *N*-methylglycine 275
investigation of the optical and ultrasonic properties of praseodymium and cerium chlorides in nonaqueous solutions 334
synthesis and spectroscopic characteristics of a new class of lanthanide compounds of formulae $Ln(HX)_3(NO_3)_3$ and $Ln(HX)_3Cl_3$ 360
investigation of Er, Er:Yb and Er:Tm systems in silica sol–gels 450
Squarates
spectroscopic and magnetic studies of polynuclear Nd and heteronuclear Nd:Cu squarates 303
Stimulated emission cross section
investigation of $LiXO_3$ (X=Nb, Ta) crystals doped with luminescent ions 152
Stimulated Raman scattering
stimulated Raman scattering in Nd:KGW laser with diode pumping 300
Stoichiometric compounds
preliminary report on growth, structure and optical properties of $K_5LaLi_2F_{10}:Ln^{3+}$ (Ln^{3+}–Pr^{3+}, Nd^{3+}, Er^{3+}) crystals 254
Super-radiance
coherent light sources with powder: stimulated amplification versus super-radiance 11
Synchrotron radiation
radiative recombination in Ce-, Pr-, and Tb-doped barium fluoride 199
radiative recombination in BaF_2:Pr 261
VUV excited emission pulse shapes of $LuAlO_3$:Ce 483
Synthesis
synthesis and spectroscopic characteristics of a new class of

lanthanide compounds of formulae $Ln(HX)_3(NO_3)_3$ and $Ln(HX)_3Cl_3$ 360

Tb(III) porphyrin
spectroscopic investigation of Tb(III) porphyrin in solid and solutions 439
Template synthesis
rare earth macrocyclic complexes derived from spermine 435
Tensor operators
theory of host sensitized luminescence of rare earth doped materials. I. Parity considerations 165
Thalium
spectroscopic properties of $SrZnCl_4:M^{2+}$ and $BaZnCl_4:M^{2+}$ (M= Eu, Sm, Tm) 193
Thermal analysis
radiative recombination in Ce-, Pr-, and Tb-doped barium fluoride 199
thermoluminescence and scintillation properties of LuAP and YAP 289
Time-resolved laser-induced fluorescence spectroscopy
lifetime and fluorescence quantum yield of uranium(VI) species in hydrolyzed solutions 107
TPPEr(III)dpm
spectroscopic investigation of Tb(III) porphyrin in solid and solutions 439
TPPTb(III)acac
spectroscopic investigation of Tb(III) porphyrin in solid and solutions 439
Transparent ceramic
temperature dependence of Ce-emission kinetics in YAG:Ce optical ceramic 495
Trapping
radiative recombination in BaF_2:Pr 261

Up-conversion
blue emission of Pr^{3+} ions in $LaCl_3$ crystal triggered by U^{3+} 18
efficient up-conversion in $KYb_{0.8}Eu_{0.2}(WO_4)_2$ crystal 180
energy transfer processes in Pr^{3+}: $Be_2La_2O_5$ crystals 430
crystal structure and optical spectroscopy of $CaGdAlO_4$:Er single crystal 475
Uranium(3+)
absorption spectrum analysis of uranium(III) formate 329
Uranium(III) formate
absorption spectrum analysis of uranium(III) formate 329
Uranyl(VI) hydrolysis
lifetime and fluorescence quantum yield of uranium(VI) species in hydrolyzed solutions 107
UV–VIS spectroscopy
rare earth doped sol–gel materials as potential absorbance standards 224

Vaccum ultraviolet
downconversion: a new route to visible quantum cutting 421
Valency
mixed valency of the rare earth and actinium ions in solid states 348
Vibronic coupling
spectroscopy and structure of selected lanthanide polymeric and monomeric systems 71
spectroscopy and structure of Eu(III) complex with *N*-methylglycine 275

Xerogel
improvement of emission intensity in luminescent materials based on the antenna effect 55
X-ray
spectroscopy and structure of Eu(III) complex with *N*-methylglycine 275
X-Ray crystallography
spectroscopy and structure of selected lanthanide polymeric and monomeric systems 71
X-ray diffraction
ESR and X-ray diffraction measurements of Nd substituted yttrium aluminum garnet films 316
structure peculiarities of the $La_{1-x}Nd_xGaO_3$ solid solutions 471
crystal structure and optical spectroscopy of $CaGdAlO_4$:Er single crystal 475
X-ray line
mixed valency of the rare earth and actinium ions in solid states 348
X-ray powder diffraction
simulation of the spectroscopic and magnetic properties of RE(III) ions in RE oxychlorides based on exact crystal structure from Rietveld refinements 45

YAG:Ce
temperature dependence of Ce-emission kinetics in YAG:Ce optical ceramic 495
YAG–Ho^{3+}
optical transitions of Ho^{3+} in YAG 389
YAG substrates
ESR and X-ray diffraction measurements of Nd substituted yttrium aluminum garnet films 316
$Y_3Al_5O_{12}$
colour centers in doped $Gd_3Ga_5O_{12}$ and $Y_3Al_5O_{12}$ laser crystals 395
Yb^{3+}
charge transfer luminescence of Yb^{3+} in orthophosphates 426
Ytterbium
Yb^{3+}–Er^{3+}-codoped $LaLiP_4O_{12}$ glass: a new eye-safe laser at 1535 nm 123
Ytterbium concentration
influence of Yb concentration on Yb:KYW laser properties 238
Yttrium
rare earth macrocyclic complexes derived from spermine 435
Yttrium ortho-vanadate
electron spin resonance and optical measurements of yttrium ortho-vanadate, doped with Nd^{3+} ions 310

Zircon
laser-induced luminescence of rare-earth elements in natural zircon 267
Zirconia films
fluorescence study of zirconia films doped by Eu^{3+}, Tb^{3+} and Sm^{3+} and their comparison with silica films 147
$ZnAl_2O_4$ spinel powders
emission properties of nanostructured Eu^{3+} doped zinc aluminate spinels 456
